## SUITING UP

While spending several months in the Republic of Georgia conducting construction quality assurance, Tim Anderson of Europe District attended the Weapons of Mass Destruction Counter Measures Responder Training Course conducted by Diplomatic Security from the U.S. Department of State.

## ACCESS CONTROL

A contractor makes sure his lines are straight as he lays stone and mortar on a guard shack in Dexheim, Germany. This facility is just one part of Europe District's efforts in improving the main gate at Anderson barracks to meet the latest Army security standards.

## TSUNAMI RELIEF

When a tsunami hit Sri Lanka, Indonesia and other countries in December 2004, homes and lives were destroyed. People from around the world gathered to help put those lives back in order. John Wutzer, a mechanical engineer with Europe District, joined Global Crossroads as a volunteer to help rebuild homes in Sri Lanka. Read more on page 18.

### On the Cover

Firefighters from the 39th Air Base Wing battle a relentless blaze as part of their training at Incirlik Air Base, Turkey. The Fire Trainer was built by the Europe District and will help keep the firefighters trained, and save money, by having the facility on base. By the middle of May, over 100 firefighting personnel had received their Airport Firefighter certification because of the opening of the new trainer.
